It is announced that Taft eats three square meals a day. No one would doubt it.

When a newspaper man vehemently asserts that his paper is not dead, it is a cinch that it ought to be.

Taft has had so much trouble with the Territories that he will probably ask congress for the appointment of a bureau on territories. This does not sound very much like early statehood.

The return of prosperity is again heralded by the Republican press. The Record is under the impression that prosperity was announced to have returned some months ago, but perhaps we got tangled up with another Republican promise.

The United States government is buying nearly all the powder and dynamite used in the construction of the Panama Canal abroad. The government escapes paying the tariff, but the millions of consumers of the necessities of life must pay the exorbitant prices demanded by protected trusts because of this same tariff.

Collier's Weekly presents figures showing that while the Dingley protective tariff raises but \$300,000,000 revenue for the government, it costs the consuming public of the country the sum of \$2,000,000,000. This amount as the Denver News truly says, is taken from the pockets of those who produce wealth and put in the pockets of those who produce congressional pull.

The Record has received a copy of the itinerary of the trip of the committee of the senate which is to inspect the government reclamation works. The committee will not come to the Pecos Valley and will merely go through western New Mexico because it is the shortest way between points they desire to visit in Arizona and Colorado.

That there is something in the bank guaranty plan is evidenced by the fact that 71 National Banks in Oklahoma have surrendered their charters and reorganized as state banks. This they have done to get the benefits of the state bank guaranty law, which, since it was advocated in the Democratic National platform, has been bitterly opposed by the Republican Federal administration. It is one of the signs of the time. The bank guaranty plan is gaining strength all over the country. It is so eminently just and reasonable that it will prevail in the end.

Another weekly newspaper has appeared in eastern New Mexico, this time at Amistad, in Union county and north of the line of the Rock Island. It is typical of the territory that where Amistad now is but two short years ago there was but the bald, naked prairies. Success to the Amistad Tribune.

A STEP FORWARD.

The Santa Fe New Mexican considers the local option election held in Santa Fe on Monday as not at all wasted. Although a defeat for the "Drys" the election showed that they possessed great voting strength.

Says the New Mexican:

"If not a great victory, the local option election yesterday marked a decided step forward. The temperance advocates and the saloons measured strength at the polls and the saloons came out such a close winner that in effect they are moral losers and their battle can be declared lost. It is not

HARRY MORRISON.

necessary to review the details of the battle, the mistakes that have been made, the influences that were bro't to bear. Like the fight against slavery or the fight against any other great moral evil, the battle does not cease until right has won. This is only the beginning of the fray to wipe out the saloon from New Mexico and it is an auspicious beginning for the straits of the victor are desperate while the temperance advocates are merely girding themselves joyfully and confidently for the next conflict. Had the women voted yesterday, or

even only those among them who are taxpayers, the saloons would have been utterly routed in this, the first skirmish."

THE WHITE AND YELLOW RACES MEET IN CONTEST.
Buffalo, N. Y., June 10.—The annual conference on Charities and Corrections which assembled last night continued its work today. The topics discussed were "Immigrants," "Children" and "Families and Neighborhoods." Today's conference opened with an address by C. G. Carstens.
Buffalo, N. Y., June 10.—That "immigration from the Orient to this country is worked up by steamship lines and assisted by emigration agencies there organized," is the charge made by W. Almont Gates, secretary

Ambulance Service. Telephone No. 75

of the State Board of Charities and Correction of California in an address before the National Conference of Charities and Correction here today. Mr. Gates sees a veritable "yellow peril" to the civilization on the Western Coast of the United States, unless the Oriental immigrant is denied admission to these shores.

He said in part: "Conditions of living in Oriental countries are very much harder than in America. Centuries of toil and privation have trained the oriental to do the largest amount of work at the least cost of subsistence. American conditions of living are exploited in the Orient and immigration to this country is worked up by the steamship lines and assisted by emigration agencies there organized."

"Chinese immigration to California commenced with the days of gold and continually increased until stopped by the exclusion law of 1882, at which time the annual increase of Chinese exceeded that of the white race. Then the Japanese commenced to arrive, and from 1900 to 1908, one hundred and nine thousand were admitted thru

the Custom Houses. There are now in this country, approximately, four hundred and seventy-six thousand Orientals, eighty-five per cent. of whom are on the Pacific Coast and Hawaii.

"When the Oriental arrives he must find work, and to get it will underbid all others. Even then it is the highest wage ever earned. He gets employment, first in the lowest fields of labor, works long hours and does fair work, so intrenching himself. Then he strikes to exclude all white men, after which higher wages are demanded and next he demands the management of the business. Japanese capital is now making investments, especially in the purchase of farm lands. If this continues, in time he will own the best farm lands and crowd out completely the white farmer. The white population protests against driving

TRY THIS RECIPE

DOUGHNUTS

Beat one cup of sugar and two eggs till very light, add one teaspoon melted COTTOLENE, one cup sour milk, and one-fourth level teaspoon each of cinnamon and salt. Mix one-half level teaspoon soda and one scant teaspoon of baking powder with one cup of flour, stir it in and add more flour till stiff enough to roll out. Have it as soft as possible to roll, one-third inch thick. Cut into rings and when all are cut, cook them in hot, deep COTTOLENE. The fat should be hot enough for the dough to rise to the top immediately.—Fairbank's Pure Food Cook Book.

Cottolene
"Shortens your food
Lengthens your life"

Everybody ought to use COTTOLENE for frying and shortening purposes on account of its wholesomeness.

A trial of Cottolene

is a step in the right direction. Be sure to see The N. K. Fairbank Company's representative, Mr. Draper, who is demonstrating COTTOLENE to our customers.
